Lantz-Boggio designs inspiring interiors for Solera at Cherry Creek community

Lantz-Boggio Architects and Interior Designers has completed the interior design for Solera at Cherry Creek, a new and innovative 96-unit assisted living and memory care community. Located in Denver’s Cherry Creek neighborhood, and set for completion in 2019, the community will feature best-in-class interior design with a backdrop of floor-to-ceiling windows to the mountains and vistas of Denver’s Front Range. Amenity spaces within the building are carefully crafted to incorporate programming and technologies tailored to current and future generations of seniors. Solera at Cherry Creek’s interiors are thoughtful, inspiring and respond to evolving changes in the desires and expectations of senior Americans and their families.

Kephart-designed Ironwood at Red Rocks MF project is complete

The new multifamily rental community Ironwood at Red Rocks was recently completed and is now open for occupancy. The project team for this community included Kephart Architects, Embrey Partners and Norris Design. Ironwood at Red Rocks is in Littleton just 4 miles from Red Rocks Amphitheater.

Geared toward young professionals and young families with an active lifestyle, this community has many outdoor amenities, including a yoga patio, hot tub, resort-style pool with tanning ledges, cooking and dining area, fire and water features, bark park and pet spa, and recreation lawn with multiple gathering spaces. The indoor amenities further enhance the active lifestyle with a game room with billiards and shuffleboard, bike and ski workshop, bike lockers and racks, covered parking, catering kitchen and dining room, and full-scale fitness studio.

Adolfson & Peterson celebrates opening of new Thunder Vista P-8 school in Anthem

Adolfson & Peterson Construction recently cut the ribbon on the new Thunder Vista P-8 project. This new 136,036-square-foot school will eventually serve 1,000 students and is Denver’s first building certified under the Collaborative for High Performance Schools Verified Leader program. The building uses brick and metal panels that incorporate colors from the natural setting and brick fins on the end of the classroom wings match the Flatirons. A “learning stair” connects the cafeteria to the main level and an open library features an upper level for middle school students. The facility includes an energy-efficient mechanical system with ground source heat pumps, outdoor class-rooms and a community garden.

KGY-designed Solana Olde Town Station receives 2018 Multifamily Executive Grand Award

KTGY Architecture + Planning announced that a community designed by the firm’s Denver office was recognized as part of the 2018 Multifamily Executive Awards program, which celebrates excellence within the multifamily industry. Solana Olde Town Station, a 352-unit rental community, received Grand Winner recognition, the competition’s highest honor, in the Garden-Style Apartment category.

Designed on behalf of ReyLenn Properties, Solana Olde Town Station is a three-story garden-style rental community in Arvada. Completed in 2017, it offers 352 apartments in one-, two- and three-bedroom floor plans in an infill location adjacent to the Olde Town Arvada light-rail station, just five stops from Denver’s Union Station on the G Line.
