A/L GARDEN

Angel View Assisted Living offers a much needed and caring place for Salida's aging population to live. Located in the valley of Mount Shavano, the building is oriented to provide commanding views of the peak and the ice "Angel of Shavano" that appears on the mountain side every spring as the snowpack melts. The building has been thoughtfully organized into three small neighborhoods - two for assisted living and one for memory care residents. Each neighborhood has its own outdoor garden and sitting area along with a distinct character for easy wayfinding.
