ABOUT THE PROJECT

Strategically positioned adjacent to a prominent light rail station, MAA Abilene is a transit-oriented development that creates a new housing for professionals working in the area. Beyond its convenient location, the community will feature three highly visible public art installations, including a hand-painted mural and outdoor sculptures that can be seen from the transit stop. The art is intended to tell the story of the City of Aurora's growth and diversity, while simultaneously creating a unique identity for the community and tying it to the history of the area.
